MEMORANDUM FOR: Assistant Director, National Estimates
Assistant Director, Research and Reports
Assistant Director, Current Intelligence
Assistant Director, Scientific Intelligence

SUBJECT: DDI Activities in Operational and Policy Support

REFERENCE: Memorandum from Acting Director to DD(I),
"DD/I Activities in Operational and Policy Support," dated 21 September 1962

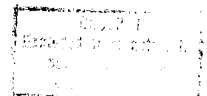

1. Attached is a memorandum from General Carter directing me to work out the necessary arrangements for expanding the role and effectiveness of the DDI area in the field of operational and policy support. I have discussed this general problem with you on several occasions and I believe that you are convinced, as I am, that we have a challenging opportunity and a serious obligation to make the resources of the DDI a more effective instrument in the formulation of operations, plans, and policy.

2. To some extent the responsibility assigned to us by General Carter will involve us in new and delicate relationships. It is obvious that we will have to proceed gradually and perhaps even experimentally. I have no intent of tampering with the organization of the DDI area nor do I wish precipitately to barge into new fields of activity or new patterns of relationships. Nevertheless, I am anxious to move forward as quickly as possible. I plan to discuss this in general terms at the next weekly meeting of IADs. However, I would like to meet with you beforehand on Thursday, 27 September at 1000, at which time Chet Cooper and I will develop our ideas with respect to the philosophy, mission, and mechanics of this new responsibility. I am attaching a list of senior officers with whom Mr. Cooper and I will discuss our initial approach to specific area and functional assignments.
